IoT Made Easy – Session 1/4
Power Efficient Solutions for your IoT Application

SMART | CONNECTED | SECURE

Miroslaw Dybizbanski,
Embedded Solutions Engineer

Markus Austermayer,
EMEA IoT Evangelist

Constatin Radu,
Analog and Mixed Signal Expert

Session 1 (14 Sept, 2pm CET) : « Power Efficient Solutions for your IoT Applications »
Session 2 (15 Sept, 2pm CET) : « Connectivity Made Easy and Scalable for your IoT Application »
Session 3 (16 Sept, 2pm CET) : « Security matters… and How it is Now so Easy »
Session 4 (17 Sept, 2pm CET) : « Scale your Business : from Easy Prototyping to Fast Time to Market »

Welcome to Low Power Sensor to Cloud Training Week
Low power sensors that are part of an IoT network bring new challenges to R&D and Cyber Security experts. More functionality, Cyber Security system aspects, deciding the right communication and all with less energy available. Sound familiar? then don't miss our expert sessions - made for you.
#Sensors, # Data Security, #Low Power, # Wireless Communication, #Design for Scalability, #Design for Agility, #Secure Design, #Fast Prove of Concept
IoT Made EASY! Smart|Connected|Secure
